

Syntax review 1 (exercises)

Complete the code snippets below so that they become valid JavaScript code.

Exercise 1

```
function add(                ) {  
    return firstNumber + secondNumber  
}  
  
// Sample usage  
add(1, 2) → 3  
add(3, 2) → 5
```

Exercise 2

```
function multiply a, b  
    return a * b  
  
// Sample usage  
multiply(1, 2) → 2  
multiply(2, 2) → 4
```

Exercise 3

```
double(x) {  
  return * 2  
}
```

```
// Sample usage  
double(2) → 4  
double(5) → 10
```

Exercise 4

```
function nextDecade {  
  year + 10  
}
```

```
// Sample usage  
nextDecade(2020) → 2030  
nextDecade(2000) → 2010
```

Exercise 5

```
function nextYear(year)  
  return + 1
```

```
// Sample usage  
nextYear(2000) → 2001  
nextYear(2020) → 2021
```
